GLEE CLUB APPEARS.

Young Men's Christian Association Entertainment.

LAWN PARTY A SUCCESS.

Dr. J. A. Platts, W. F. Dunning and Others Helped Make the Occasion A Grand Success—The Roosevelt Club Banqueted.

HAD A CHICKEN AND WAFFLE SUPPER

The Glee Club of the local Young Men's Christian Association, made its first public appearance Tuesday evening before a fair sized audience in Petrikin Hall.

It would not be at variance with the truth to say that many were surprised to see, not a group of untrained 'would be vocalists," but to all appearance, a well trained College Glee Club.

The Lawn Party had been advertised as the feature of the evening, but the committee in charge generously provided a first part of five numbers. In the first part Dr. J. A Platts sang "A May Morning" and "When the Heart is Young." The Doctor responded to two well deserved encores. The Glee Club sang "The Lwee Song" and "Listen to my tale of Woe" with Mr W. F. Dunnig as soloist, both selections were encored. Mr Henry Brown was on the program for a solo, but could not appear on account of a bad cold.

After a five minutes intermission the curtain was raised for the Lawn Party, and revealed the members of the club and a number of young ladies seated at small tables.

"The Whitemark Overture" was sung by the club while seated. In this part of the second program the following persons appeared as soloists, Sarah Fitzgerald, Russell Blair, L. C. Godfrey and C. N. Meserve.

Two selections were rendered by a male quartette composed of the following members, 1st. tenor, Dr. J. A. Platts; 2nd tenor, C. N. Meserve; 1st bass, Charles Luckenbach; 2nd bass, John M. Bullock, on first selection, W. F. Dunning, on second selection.

The closing number of the program, was a burlesque sextette entitled "Tell us pretty ladies" which was presented by the Misses Mary Brown, Lillian Walker, Sarah Fitzgerald, and Messrs John Bullock, Russell Blair and L. C Godfrey. The costumes of the sextette were great and the words of their songs very catchy, they received two encores Much credit is due Director W. F. Dumming for the artistic success of the entertainment. The proceeds of the entertainment will be devoted to the Y. M. C. A, piano fund. It is the intention of the Glee club to pay for a four hundred dollar piano by means of a series of entertainments. It is certain that this club will be a credit to Bellefonte, so should receive public encouragement. The members of the club follows:

1st tenors	2nd tenors
J. A. Platts,	C. N. Meserve
Russell Blair,	L. C. Godfrey,
Paul Wetzel,	Chester Barnes,
	Mr. Brown,
	Milan Walker,
1st bass.	2nd bass
Bert Robb,	John Bullock
Charles Lukenback,	E. I. Chambers,
Nelson Showers,	Edward Shields,
Elliott Holiabaugh,	Claire Seibert,
Frank McMahon,	W. F. Dunning.

W. F. Dunning, director.

ROOSEVELT CLUB BANQUETED.

On Tuesday evening the home of Mr. and Mrs. Edward Haupt was the scene of a gay gathering of young and old "stags," in other words the Roosevelt Club was entertasned at a delightful chicken and waffle supper. Mr. Haupt who is a prominent member of this organization and by the way who is a candidate in the West Ward for Councilman on the Republican ticket told the boys at the time of his marriage that he would have them to his home in the near future to a supper and so Tuesday evening the promise was fulfilled. It is needless to say that everyone had a royal time and enjoyed the feast immensely. Mrs. Haupt who is an excellant young lady prepared the supper and the manner in which the chicken was cooked and the waffles baked showed full well that she understood the fundamental principals of housekeeping.

After the meal was fully enjoyed by all, the boys sat around and had a good time telling stories of by gone days. The Doctor was there ready to prescribe for any who had overloaded their stomach. The old bachelors present such as Lew McQuistion, Sam Cherry, Logue Long, and Doc Thomas seemed very much worried over the new law that will surely be passed, that all bachelors will have to pay an annual tax to the state of $25.00. Hard luck fellows, wouldn't be one of those kind for a whole lot.

The evening was enjoyed and all had a royal time and at a late hour went to their homes, wishing Mr. and Mrs. Haupt many many years of joy and happiness in this life

HIS LIFES' WORK ENDED.

Henry Albert Sampsell Called Home to Rest.

Having passed his three score and ten years in life, having lived the allotted time laid down to him, Henry Albert Sampsell passed on to his reward on Tuesday morning at 10 o'clock. His life has been good clean and faithful. When a boy he united with the Methodist Episcopal church and always lived according to that faith.

His entire career has been spent on the farm with the exception of a couple years he has been living in Bellefonte and the most of that time he has been the faithful night watchman at the Centre County Bank.

Four weeks ago from the day he died his good wife passed to her reward and he was broken hearted over her death and really never fully recovered from the shock. A week ago last Saturday he caught cold which developed into pneumonia and his frail body could not withstand the struggle and God in His goodness releived him at the above mentioned time. He was born at Centerville, Snyder county and was 73 years old.

He leaves to mourn his death the following children: William of Braddock; Mrs. Chas. Powell, of Altoona; Mrs. Vance Lucas, of Tyrone; John, of Pleasant Gap; Harry, of Axe Mann Mrs. Luther Ihler, of Houserville; Mrs. W. H. Albright, of Lemont; Chas. Boyd and Mrs. Lloyd Zettle, of Bellefonte. The funeral occured on Thursday afternoon at 1:30. Services were held at his late home on Allegheny street Interment at Pleasant Gap.

A Brave Young Lady.

Friday a black horse of McCalmonts attached to a sleigh ran away. Miss Williams one of the book keepers for the company had a hold of the lines as the beast came down High street at bread neck speed. She bravely held to the lines and guided the runaway in a remarkably cool manner. At the United Brethren church corner the out fit slid over the ice quite a bit but she jumped to the side of the sleigh that was in the air and saved what might have been a terrible accident. The horse was making for the barn near glass works.

Samuel Gingery Dead.

Mr. Samuel Gingery of Worth township died on Monday morning from cancer of the stomach and other ailments incident to old age. He is about 81 years old. He is survived by three sons and three daughters namely, Dorsey, of Clearfiel; David, of Woodland; William B. of Martha; Mrs. W. M. Cronister, Mrs. Scott Laird, and Miss Mollie at home. Funeral occured on Wednesday morning. Interment in Browns cemetery.

A Miraculous Escape.

Russell Jury had a wonderful escape from instant death on Monday afternoon in the Garman opera house. For some purpose he had climed up between the roof of the house and the ceiling and was crawling along near the dome when he fell through. By his presence of mind he grabbed the rafters and held there until he was helped out of his perilous position. The ceiling is marred by the accident.

Frank Miller Dead.

On Monday the sad intelligence reached Bellefonte of the death of little Frank Miller (colored) the four year old son of Mr. and Mrs. Frank Miller of Williamsport. The death of the little boy occurred on Friday evening. The boy body will be brought to Bellefonte for interment.

HOTEL TO CHANGE HANDS

Central Hotel at Milesburg Sold TO HARRY AUSTIN

Ardell Lumber Plant Likely to be Sold—Interesting News.

ALL HAPPENINGS UP TO DATE

AN OLD LAND MARK CHANGES HANDS.

For the part 33 years the old tavern at Milesburg known as the Central Hotel has been run by Alex Kohlbecker. Every time a passenger train would pass by "old Colie" (as he was better known by that name) would stand on the front porch and beat a pan announcing to the passengers that they could get a lunch and some refreshments while the train was in Bellefonte. Year in and year out he worked earnesting there and raised a large family of children who are a credit to the town. A few years ago Mr. Kohlbecker died and his son Henry had charge of the business and seemed to be making a success out of it. Some of the relatives wanted a settlement of the estate so a couple of days ago Harry Austin bought the hotel and will take charge April 1st. Mr. Austin is a young man intelligent, industrious and highly respected among the citizens of Milesburg. He has lived there for the past 24 years and no one has a harmful word to say about him. As proprietor of this hotel we feel sure he will conduct the place in a manner that no one need feel ashamed of, and that he will be successful, is quite certain as he is a young fellow who is full of energy, ambition, and up. Mr. Austin expects to take full charge of the hostelry on April 1st, and expects to do a great deal of rebuilding, and will have the place thoroughly renovated and cleaned, painted inside and out and every room nicely papered and furnished out and out with new carpets and furniture. When completed he expects to have one of the prettiest little hotels in Central Pennsylvania. Harry old boy we wish you unbounded success in your new venture.

OLDEST PLANT LIKELY TO BE CLOSED.

It is rumored through the streets of Bellefonte that the entire stock of the Ardell Lumber Company is to be sold to a firm in Williamsport. Who will as soon as the deal is completed move the stock to the Lumber city. We would be very sorry indeed if this rumor would be correct as this firm is one of the oldest and best industries in Bellefonte.

"A High Old Time."

Under a bright moon-light and a perfect snow bed for sleighing we were out around the city Thursday evening and saw what the boys would call "a high old time."

It was a conglomerate scene. First of all was the Coleville Band dispensing its charming music marching up High street. Next, the Salvation Army coming down High Street marching under their "banner of the Lord" to recruit sinners astray for the "Kingdom of God." Along Allegheny and Spring Streets were seen not a few fantastics wending their way to the masquerade rink display in the Armory. Going in the oppolite direction was a four-horse long sled load of young folks cuddled down on straw tuting their horns in joyful glee.

While this was going on Policeman Beezer was peaceably settling a troublesome case quite satisfactorily to all parties concerned, at the same time there was a large gathering at the Methodist Episcopal church praising the Lord and seeking he everlasting salvation.

Captain Garbrick for Wholesale License.

On Saturday afternoon Captain Philip F. Garbrick filed his application for a wholesale liquor lincense in Bellefonte. He had an application in last year but withdrew. Philip is a fellow that has never taken a drop of liquor in his life. We served with him for nearly ten years in the National Guards of Pennsylvania and during the Spanish—American war and never knew of him touching a drop all through this service. He has a great many substantial friends who signed his application and who will wish him success in receiving the license.

WANTS TO COME TO BELLEFONTE

The National Cash Register Company Wants to Locate Here.

If the Board of Trade or the Business Men's Booster Club will get busy and attend to this matter, Bellefonte will have one of the best paying industries ever in town.

From a very reliable source we received the good news this morning that the management of this large manufactoring company wants to locate in Bellefonte and have written to different business men here in regards to the matter. We don't know why it has been kept quiet until today but the report leaked out and we got a hold of it.

Bellefonte would be an ideal place for a concern of this kind and it would mean the regeneration of the old town. In their letter to some of our business men they inquired after coal and other material used in the manufacturing of these machines and that they would have to have eight acres of land Everything they want we have got, all that is necessary is to get them here. A few weeks ago we had an account of this company wanting to locate here in the east, and for the benefit of those who did not see it we will publish the article again. It is as follows.

The National Cash Register company of Dayton, Ohio, is reported to be looking for a location in this section of the country. The industry is the largest of its kind in the world, employing 5,500 men and paying in wages $5,000,000 a year. It has been a model manufactory, devoted to the comfort and improvement of its working people and the cultivation of artistic factory and home surroundings and sanitary regulations, and the town that secures it must evidently have the spirit of improvement in the same direction. Bellefonte would be an ideal location for an industory of this kind.

PASSED TO HER REWARD.

A Loving Wife and a Good Kind Mother Gone to Heaven.

On Saturday morning at 6:30 the spirit life of Mrs. Kathrine McKinley wife of J. G. McKinley of Milesburg took its flight into that land whence no traveler returns. She had been ill for quite a while with brights disease and she was ready and waiting when the summons came, so that she could go home to rest When quite a small girl she united with the Methodist Episcopal church and has lived according to that faith ever since. The home will be very empty without her, the chair that is now vacant will never be filled by her again and we realize the heartaches and sympathize with the children who are left to mourn their mothers death.

Mrs. McKinley was born in Greens Valley and was 51 years 8 months and 8 days old. The funeral occured on Monday morning at 10 o'clock. Services conducted by Rev. Pifer. She leaves a husband and the following children to mourn her death. Mrs. Edith Knopf and Fred of Milesburg; Mr. E. N. G. Meyer, of Bellefonte; Harry S. Meyer, of Olean, N. Y. She also has two brothers living, Messrs. George L. Horner, of Pleasant Gap; and Ellis Horner of Nittany.

THE MONUMENT TO BE COMPLETED.

Twenty Tablets Arrived and will be Placed in Position.

On Wednesday Mr. Holman of the firm of Jones Brothers of Vermont arrived in Bellefonte to complete the firms work of the Soldiers and Sailors Monument of putting on the balance of the tablets. Twenty of which have been shipped and are expected to arrive in Bellefonte today. Two plates with the names of the soldiers of the wars of 1775—1812 and 1845 will not be placed until later in the spring. Mr. Holman will begin the work immediately after the tablets reach Bellefonte.

Returned from the South.

William Barlett arrived home on Wednesday evening from his eventful trip to Alabama. A few weeks ago Mr. Barlett accompanied a locomotive to this Southern state which had been made by the Bellefonte Cantral R. R. Co. of which Mr. Barlett is head foreman. He reports having had a most delightful trip and the many sights he witnessed will never be forgotten. He says the Southerners were very kind to him and that he liked their ways very much. The weather down there is warm and pleasant, the blue birds are singing and the sun is shining bright and clear. No zero weather down in that country.

CENTRE COUNTY BOY KILLED

David G. Osman, of Pine Grove Mills Killed at M'Garvey

FLAGMAN ON MOUNTAIN

Was Run Down by a Passenger Engine on Wednesday Afternoon at Four O'clock Died in Altoona Hospital

SON OF MR. AND MRS LEMUEL OSMAN

David G. Osman, a flagman on the Pittsburg division, was run down by a passenger engine, Friday afternoon at 4, and so badly injured that death resulted at the Altoona hospital, where he was taken less than two hours afterward.

Flagman Osman was a member of a crew that was taking a freight train westward, yesterday afternoon, and just east of GY tower, near McGarvey's station, his train was stopped and he was sent back to flag the train following. He had accomplished his work when he was called back to his train. Upon reaching the cabin of his train he walked around the rear of the car and stepped in front of a helping engine that was returning from assisting a passenger train up the mountain.

He was struck and dragged a short distance and when picked up by his fellow trainmen was in an unconscious condition. He was placed on the engine that struck him and brought to the local passenger station, from which place he was taken to the hospital.

Osman is 25 years old and he is a son of Samuel Osman of Pine Grove Mills.

Rev. Millagan Goheen Dead.

Rev. Millagan Goheen of Rock Springs died in Wooster, Ohio, on Monday where he had gone last week to visit relatives. He caught cold during the week which developed into pneumonia and greatly affected his heart. The two diseases together quickly ended his life.

He was the oldest son of John and Sarah Goheen. His father is still living at Rock Springs and is 88 years old. Had Rev. Goheen lived until the 16th of this month he would have reached his 60th year in life He was married twice. his first wife was Nannie Bell, of Rock Springs. His second wife was Amanda McGinis of Wooster, Ohio.

Rev. McGinnis was a Missionary in India for over 30 years. He came home last Spring to remain the balance of his days at the place of his birth. The funeral occured Wednesday at Rock Springs.

Preliminery Inspection of Co. B.

On next Friday evening Company B. will pass through what is known as its preliminery inspection in their Armory on Spring street. It will be conducted by Major Robert G. H. Hayes assisted by Captain Melvin J. Locke and Captain Robert Hunter. The general appearance of the men, their clothing, guns, and their entire camp outfit will be thoroughly inspected by these officers and any blemishes they see must be remidied before the regular inspection by Major Jefferies of Pittsburg on Feb. 27th. Every man must be in line next Friday evening and every movement will be executed the same as at the regular inspection.

Last Friday evening Captain Garbrick announced the following promotions. Linn J. Blackford and Harry Shreffler from corporals to sergeants. Frank Hazel and William Brouse from privates to corporals. We extend our congratulations boys:

Buried At Pine Hall.

On Friday Mrs. J. H. Wolf of Avi died of cancer of the stomach, aged 50 years and 8 months. The body was brought to Bellefonte over the Central R. R. of Pa. and taken to Pine Hall over the Bellefonte Central. The funeral occurred this morning at 9.30. Mrs. Wolf was a consistant member of the St. John's Reformed church. She leaves to mourn her death a husband and the following children. Mrs. Burton Shope, State College; Mrs. O. Beatly, of Spring Mills; William, John, Mrs. Sarah Deitzel, Mrs. Carrie Hoffman, Mrs. Maud Jones, Charles Orvis, and Hattie of Avis.

MADE A BIG HIT.

2nd Masquerade Skate Pronounced a Great Success.

The second "Masquerade Skate" has passed into history and everyone who took part in it and had the pleasure of witnessing it, pronounced the affair to be a success in every particular. The ends, sides and the gallery, of the Armory was filled with spectators who appreciated the fun as well as the skaters. At 7 o'clock the renowned Coleville Band gave two concerts on the streets and then paraded to the armory, and until 8:30 when the grand march started they kept playing their lively music. When the band played the National hymn only about a dozen men in that large audience uncovered their heads. Don't know whether they didn't know any better or not at any rate they should know.

Miss Daisy Barnes and Mr. Robert Montgomery led the grand march and the graceful manner in which the different movements were made showed that they thoroughly understood their business. Twenty-six young ladies and gentlemen took part in the march. The judges were John Bower, Esq., L. T. Munson, and Witmer Smith, they decided that the person wearing the best costume on the ladies side was Miss Mary Moerschbacher, and the gentleman who carried off the honors was Mr. F. R. Bussler. Miss Moerschbacher was dressed to represent the Goddess of Liberty, she really did look very pretty in her pure white dress trimmed in Red, White and Blue, with a gold crown of stars.

Mr. Bussler's make up was unique in every sense of the word. He was dressed as an Irish tramp, with a small pack on his back, a stove pipe hat, and a big pipe in his mouth. The top of his hat, his pipe and the end of his nose were illumined with different colored incandescent lights that kept going on and off as Mr. Bussler willed. It was certainly a splendid make up and he won the applause and praise from everyone. The winners received two very fine pair of skates.

Others who were masqued and in the grand march were Daisy Barnes, a summer girl; Lillian Taylor, as night; Pernice Taylor, the maid in blue and white; Creasy Williams, Indian maid; Julia Curtin and Eva Crissman, dutch girls; Eva Showers, Spanish maid; Myrtle Barnhart, Martha Washington; Dr. Tryon and Clarence Smith, clowns; John Bullock, a Jap; Dick Taylor, Spanish Bull Fighter; R. R. Blair, Mexican Bull Fighter; Homer Barnes, one of the finest police; William Bryan, minature cop; Asbridge Thomas, the Mexican; Chester Barnes, Weary Willie Walker. James Lose, a bowery tough; Maurice Jackson, Teddy Roosevelt Bear; Wilson Gephart, Buster Brown; Bert Robb, An Irish Lord; Tom Beaver, Mrs. Wiggs of the Cabbage Patch; Ed Keiehline, Willie Wiggs of the Cabbage Patch; Harry Dickenson, St. Valentine.

The evening was one of much pleasure and enjoyment and will long be remembered.

The Lenten Season Began Wednesday.

Ash Wednesday, marked the beginning of the Lenton season, and until the last day of March social gaities will give way to fasting and prayer. Lent will be especially observed in the Episcopal and Catholic churches, in all of which special services will be held.

The word "lent" which is deriyed from the Anglo-Saxon "Lenton spring," from the season in which it occurs, is used to designate the solemn period of devotion and abstinence which has from early times preceeded the feast of Easter. It is mentioned as early as the time of Irenaeus in the second century and he speaks of it as not merely something of his own time but of much earlier date. It was arranged to extend over a period of forty days (not including Sundays) in order to correspond with the forty days of Christ's tempation in the wilderness and so to teach the great test to which every human life must be subjected to prepare it for its appointed duty and victory.

The forty days of Lent ecclesiastically, call upon the faithful children of the church for abstinence from the ordinary social pleasures, for special devotion to the duties of the Christian life, for the exercise of self restraint and self-sacrifice and for a general bracing of the tone of the spiritual life by devout reverence to the standard set by Christ Himself.

It is, in fact, an episode in the Christian life not to be evaded by those who make the year the following of the pathway of Christ through human life from the manger of Bethlehem which is in sight at Christmas to the triumph of Easter,

WANAMAKER LOSES

His Country Home Completely Destroyed by Fire.

MILLION AND A HALF

The Art Gallery Contained Some of the Finest Paintings in Existance not all Destroyed.

THE LOSS COVERED BY INSURANCE

Philadelphia, February 9.--Lyndhurst, the handsome country home of former Postmaster General John Wanamaker, at Chelton Hills, near Jenkintown, was destroyed by fire Friday night, entailing a loss estimated at $1,500,000.

Mr. Wanamaker's home was considered one of the most artistic and valuable of Philadelphia suburban property. The estate consists of thirty acres of ground, and the house which in the main was of English style of architecture, stood on a hill about 350 yards back from the famous Old York road. The Wanamaker art gallery contained some of the rarest prints and most valuable paintings in existance.

Mr. Wanamaker and his family have been at their winter home, in this city, and the country place was in charge of a care-taker.

The fire made rapid progress, a few valuable paintings being about the only thing saved. Among these were "Christ Before Pilate" and "Christ on Calvary" by Munkacsy. These two painting are valued at $250,000.

The suburban police and fire companies from Jenkintown, Ogontz, Ashbourne and Glenside, were called into service, but the water supply was inadequate and their efforts availed little. The loss is covered by insurance.

MADE FROM NATIVE ROOTS.
SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women.

Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

HALT IN CRIME AT PITTSBURG

Long List of Murders, Hold-Ups and Robberies in Past 16 Days.

Pittsburg, Pa., Nov. 19.—The epidemic of crime that has swept over this city and vicinity since November 2 has apparently run its course, and only a few small burglaries were reported to the authorities. During the past 16 days three murders were caused by thugs bent on robbery; carbolic acid was thrown in one woman's face, disfiguring her for life; half a hundred men were badly beaten; a hundred or more men and women were held up on the streets at the point of a revolver and robbed; houses in all sections of the city were broken into and thousands of dollars' worth of plunder stolen; scores of suspicious persons have been arrested and sent to the workhouse; 200 additional policemen were added to the police force, and rewards aggregating $7000 were offered for the arrest of the murderers of James A. McMillen and Henry F. Smith. Detectives came here from other cities and endeavored to capture the murderers, and notwithstanding the combined efforts of the authorities, failed to arrest any person directly implicated in the outrages. A few days following the McMillen murder hold-ups were so frequent that persons compelled to be out late purchased firearms, causing an unusual rush of business at the hardware and gun stores.

The police express the belief now that the outrages were committed by a roving band of expert criminals who have departed for other fields.

HUMAN BONES AS CUDGELS

Medical Students Use Arm and Leg Bones In Fracas.

Chicago, Nov. 19. — Human bones were used as cudgels, and ossified arms and legs swung by medical students played the star part as bludgeons in a fracas with the dental students on the football field at Northwestern University. The football teams of the dental and medical departments of the institution met for their annual game. Between the halves the friends of the teams clashed. Each dental student carried a grotesque papier mache cane, which they wielded with effect on the "medics." When the medical students saw their opponents rushing toward them, they suddenly drew form from under thier overcoats leg and arm bones, tied with red and purple ribbons, and with these clubs smashed the heads of the invaders unmercifully. The dental students were soon put to flight, and during the last half of the game the medical students wildly swung their grewsome weapons while urging their team to victory.

Bear Hunting Statesman.

The mightiest bear hunter in all the west when President Roosevelt is not out there will be a member of the Wyoming legislature this winter from Big Horn county, says the Washington Herald. He is the Hon. George B. McClelland and by his prowess has won the sobriquet of "Bear George." He earned this title years ago when he and a partner killed twenty-three bears in six weeks in the Big Horn mountains, where bruin is extremely plentiful. Mr. McClelland stands more than six feet in his stockings, wears a blond mustache and an imperial and is credited with being able to ride "anything with hair on it." He and the Hon. W. A. Richards, who will soon retire from the commissionership of the general land office in Washington, own a ranch in the Big Horn country, and, curiously enough, although the bears play havoc with the sheep herds of other ranchmen in the neighborhood, they don't bother the McClelland ranch.

Humors of the Channel Crossing.

M. Santos-Dumont thinks that the journey from Paris to London will presently be accomplished by steerable balloon in two hours. It is possible, says the London Globe, but for some time to come we shall prefer the journey of six hours by land and water and half an hour at Charing Cross waiting for somebody to ask us whether we have imported any French cigars or cigarettes.

BELLS AS BAROMETERS.

Their Tone Will Indicate What the Weather Will Be.

Church bells can serve another purpose besides ringing you to worship. They make a good substitute for a barometer. As the atmosphere is the sole conductor of sound from the bell to the ear, it is obvious that the intensity and quality of the sound as perceived by the ear will depend on the state of the medium through which it comes. For instance, if bells sound very distinctly of an evening, this points to the probability of a wet day following, since air heavily charged with moisture conducts sound better than dry air. So, too, as dense air conducts better than light air, bells sound more clearly when the barometer is high than when it is low, other things being equal, and so, too, with hot and cold air. These principles are familiar to all country folk living within the sound of church bells. About five miles from Lebekke, in Belgium, there are some small bells which are called "water bells." When they are heard distinctly in the town rain is sure to follow.—London Spectator.

Vulgar Fractions.

Everything that Bobby learned at school he endeavored to apply in his daily life and walk. When his mother asked him if one of his new friends was an only child Bobby looked wise and triumphant.

"He's got just one sister," said Bobby. "He tried to catch me when he told me he had two half sisters, but I guess I know enough fractions for that!"—Youth's Companion.

HIDDEN DANGER.

Nature Gives Timely Warnings That No Bellefonte Citizen Can Afford to Ignore.

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy or a thick, red, ill-smelling urine, full of ediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the coming of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cures sick kidneys and cure them permanently. Here's Bellefonte proof.

Mrs. Nancy Davis, of 246 East Logan Street, says: "I suffered a bad fall some years ago when living n Rochester. I thought at first that I had broken my back. I was unable to get up without assistance and from that time I suffered for years with a weak back and excruciating pains through the loins and through the small of my back. Sometimes I was completely prostrated and helpless. Doctors and medicines failed to help me and the pain continued until I got Doan's Kidney Pills. I took only a few doses before I began to feel better and when I had continued using them for a while I was thoroughly cured. My back regained its strength and the pain left me. I have had no return of the trouble since."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, N. Y. sole agents for the United States.

Nothing will relieve Indigestion that is not a thorough digestant. Kodol digest what you eat and allows the stomach to rest—recuperate—grow strong again. KODOL is a solution of digestive acids and as nearly as possible approximates the digestive juices that are found in the stomach. KODOL takes the work of digestion off the digestive organs, and while performing this work itself does greatly assist the stomach to a thorough rest. In addition the ingredients of KODOL are such as to make it a corrective of the highest efficiency and by its action the stomach is restored to its normal activity and power. KODOL is manufactured in strict conformity with the National Pure Food and Drugs Law. Sold by Greens Pharmacy.

Special Announcement Regarding the National Pure Food and Drug Law

We are pleased to announce that Foley's Honey and Tar for coughs' colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults C. M. Parrish

It's Coming Sure.

A friendly neighbor questioned me, "Is is really true what you said in your report at the Bible Society Anniversary last Sunday that the Pope and Cardinal Gibbons now recommend all Roman Catholic families to possess and use the Bible?"

Yes, it is verily true, I give you the proof taken from Cardinal Gibbon's recent volume, The Faith of our Fathers, page 116. It is an unfounded charge that Roman Catholics are forbidden to read the Bible.

The Church, far from being opposed to the reading of the Scriptures, does all she can to encourage their perusal. The Society of St. Jerome, composed of Roman Catholics, with Bible Society methods, is putting the Scriptures into the hands of the common people of Italy. This is done with the Pope's publicly expressed approval.

It is no longer a crime to circulate the Bible any where in the world. It is now being read in whole or in part, in about five hundred languages.

More than sixteen centuries ago, it was foretold by the prophet Isaiah that "The earth shall be full of the knowledge of the Lord as the waters cover the sea."

"My word shall not return unto me void, saith the Lord, it shall accomplish that—whereunto I sent it." "What God hath promised, He is able also to perform." Rom. 4: 21

Not only God's promise shall come to pass but the Lord's prayers "thy kingdom come"—that they all may one shall be answered and happily realized on earth.

The time is coming, coming near, coming fast when there shall be no more neither Protestant nor Roman, but all Catholics in the one universal church. The nonessentials that have so long divided and weakened the church will disappear forever, giving place to the unity of "brotherly love which is the bond of perfectness."

Again I say, the time is near approaching nearer every day when "there shall be one fold and one shepherd" and "the gates of hell shall not prevail against it."

Two Fine Horses.

Mr. Strong Bellefontes broker, Sim and Morris Baum received on Friday evening two of the finest thorough-bred Kentucky horses ever brought here. They certainly are dandies, and the boys feel very proud of them. We wouldn't be surprised to hear of them doing some great work on the track one of these days.

Y. M. C. A. Membership Contest.

The second annual membership contest for men and the first annual membership contest for boys were launched amid great enthusiasm at the Association building last evening. Captain John M. Bullock and his assistants of the Red team stated with emphasis that Captain James Harshberger and his Blue soldiers would eat the mush and milk on March 7th next.

Captain Harshbergers' men were equally confident that the Blues would dine at the winners banquet with but a mush lunch for the Reds.

In the boy's contest for members, fast work is being done by both the Orange and the Purple under the leadership of Captains Olewine and Jenkins

An excellent supper was served to the members of the four teams by the ladies committee.

M. C. Gephart has sold a beautiful $400 piano to the young Men's Christian Association, taking the Associations second hand grand in part payment.

A series of musicals will be given by the Association Glee Club for the benefit of the piano fund. The first of which is scheduled for Tuesday evening next.

An Honest Man.

An old lady got off the afternoon train on Thursday and was moving slowly up town when a young man jumped off after the train had started, ran to her and said "lady here is your pocket book you dropped it in the car," and then got on the moving train. We don't know who either parties were, but we do know the old lady had tears in her eyes when she received her purse and thanked the young fellow for returning it to her. Whoever he is and wherever he went this fellow is honest and will profit by it.

The Buttonless Suspender Factory.

On Wednesday evening Mr. Theodore Kreigh a young man about 18 years of age good looking, in fact quite a ladies man arrived in Bellefonte to put in shape the wonderful Buttonless Suspender Machines. He certainly understands the business and jumped into the work Thursday morning like an "old hand." We know Mr. Kreigh will meet with success in Bellefonte in the Suspender Business and we feel confident that he will not get lonely over in the Shirt factory because the girls will certainly do all in their power to make life either pleasant or miserable for him. At any rate old man we bid you welcome to the town and wish you much success in your business.

Lock Haven vs. Academy.

The Lock Haven Normal and the Bellefonte Academy basket ball teams had an exciting contest in the gymnasium on Saturday evening. The strong Normal team continued its unbroken record of victories for the year by defeating the home boys by a score of 32 to 22. The Academy boys put up a very plucky game but their lack of team work was apparently the cause of their defeat. Lingle and Mitchell two of the best Academy players were sick and their places had to filled with substitutes, this unfortunate incident made successful playing impossible. Dunsmore as usual was very successful in shooting goals having six to his credit.

Atherton After Players.

Evidently believing that an even two dozen players are not a sufficient number with which to start the ball season, Manager Charley Atherton, of the Johnstown team, of the Tri-State League, has a notice in the current number of Sporting Life, asking that non-reserves and college players communicate with him. At present Manager Atherton is living at No. 6038 Broadway, New York City.

Y. M. C. A. Notes.

All the people that attended the basket ball game in the gym Friday night certainly saw a fast game.

The Renova team proved to be a speedy bunch and kept our fellows busy in the first half. In the second half our bunch got together and ran rings around the Renova boys. The score ended in favor of Bellefonte.

Newspaper Men Postmasters.

All around us are newspaper men being appointed postmasters. At Sunbury, Mr. Hill, editor of the Sunbury Item, at Huntingdon, Mr. Howard Butz editor of the Huntingdon Globe; at Mifflinburg, G. W. Shoch editor of the Mifflinburg Telegraph; Editor Brown of the Gazette and Bulletin of Williamsport is a candidate for re-appointment. He has several very strong opponents and it is doubtful who will get the place. The Bellefonte appointment will be made some time in March. Captain Samuel Williams a veteran of the civil war and Thomas H. Harter, editor and proprietor of the Keystone Gazette, seem to be the strongest candidetes in the field. They are both worthy gentlemen and both are working earnestly for the appointment. They have their friends who are doing all in their power to have them appointed.

"LUCKY" BALDWIN.

His Whirlwind of Speculation In the Mining Regions.

In 1853 a little party of gold seekers with a meager outfit of horses and wagons started for California from the village of Racine, Wis. In command of this adventurous expedition was a young man who took with him his wife and infant daughter. His name was E. J. Baldwin and he made a wise choice in shaking from his restless feet the dust of a tamer civilization. He needed a larger theater of action for his pent-up and surging activities. While trailing through the mountains of Utah the pioneers were attacked by Indians, who were beaten off during a six hour fight in which young Baldwin killed their chief. After six months of hardship the party reached Hangtown (later called Placerville), in California.

Here Baldwin tarried and began placer mining. He appears to have been no more than an ordinary red shirted argonaut, meeting the ups and downs of mining luck until the discovery of the Comstock lode at Virginia City. Thither he drifted and discovered that his natural bent was gambling with the mines that other men had opened. Amid a whirlwind of speculation he fought his way with such success that he loomed from the smoke in a few months as "Lucky" Baldwin, the man who had cleaned up $7,500,000 in the gigantic deals in the stock of the Ophir mines.

San Francisco was the Mecca of those lucky sons of fortune who were rearing a great city by the Golden Gate. As a stock and mining speculator "Lucky" Baldwin shone resplendent, but he was also a loyal son of San Francisco. He built hotels and theaters and business blocks even while he was amazing that far from conservative community by madly freakish extravagances.

In a very lucid interval he bought all the Spanish grants he could find near Los Angeles and there spent a million in making this ranch of his not only a splendidly productive property, but also one of the most beautiful estates ever laid out in this or any other country. It was his hobby, his pet, and he planted miles of avenues with noble shade trees and made wonderful tropical gardens, surrounding his home by a paradise of vernal beauty.—Ralph D. Paine in Outing Magazine.

Of Course.

Professor (a little distracted)—I'm glad to see you. How's your wife?

"I regret it, professor, but I'm not married."

"Ah, yes. Then of course your wife's still single."—Fliegende Blatter.

TO NEW STATE BUILDERS.

A Poem For Oklahoma Written by Freeman E. Miller of Stillwater.

Freeman E. Miller, editor of the People's Progress at Stillwater, Okla., has written this poem, "The Builders," dedicated to the Oklahoma constitutional convention, writes a Guthrie (Okla.) correspondent of the Kansas City Star:

The people spake out of the silence and said to the builders of fate:
"Come forth in the glory we give you and fashion a wonderful state;
Come forth for the labor that lasteth and build for the fetterless ways
The laws of the tribesmen unconquered clear down to the ultimate days.

"Come forth from the chains and the silence, commissioned with measureless might,
To order an empire from chaos and make it a beacon of light;
To stoop by the fettered and fallen and crown at the master command
The hopes of a people unfathomed, the dreams of a miracled land!"

And swift to the call came the builders. How vagrant the paths of their feet!
Yet, true to the mighty commission, they journey and mingle and meet,
Each clothed in the garments of wisdom, hard wrought and hard gathered in strife,
Stands forth as the master of seasons to summon a state into life.

O builders, called forth of the people, not only for us is your toil!
For tribes that shall follow through shadows the paths of the stars and the soil,
Through seedtime and harvest forever, whatever ye fashion or frame,
Shall live till the land is a legend and time is a meaningless name!

Then a prayer for the builders, O people! The God of our fathers imbue
The glories they breathe into being, the labors they venture and do,
Till all as a blessing unceasing, a vision all perfect, appears
The sword and the shield of the helpless through freedom's uncountable years!

Gentle Door Taps.

A story of extraordinary deafness was unfolded at a recent meeting of a medical society in Philadelphia. An elderly woman, exceedingly hard of hearing, lived near the river. One afternoon a warship fired a salute of ten guns. The woman, alone in her little house, waited until the booming ceased. Then she smoothed her dress, brushed her hair back in a quaint manner and said sweetly, "Come in."—Argonaut.

The Letter I.

The name of "I" is in Hebrew jod or yod, a hand, and the earliest characters representative of the sound closely resemble a hand with but three fingers. Little by little one finger after another dropped off until only the little finger was left, and the letter became the smallest in the alphabet, a jot or tittle, that is, the "I" and its dot being synonymous of the most insignificant things that could be described.

A SQUARE DEAL

Is assured you when you buy one of Dr. Pierce's Family Medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formula are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native, medicinal roots found growing in our American forests. While potent to cure they are perfectly harmless even to the most delicate women and children.

Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine of proper strength. This agent possesses intrinsic medicinal properties of its own, being a most valuable anti-septic and anti-ferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, "heartburn," foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific **for all diseases of the mucous membranes,** as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sages Catarrh Remedy. This thorough course of treatment generally cures even in the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate hang-on, or chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

If the sweet taste of the "Discovery," caused by the glycerine, is disliked, a few drops of lemon juice, orange or lime juice, added to each dose will make it agreeable and pleasant and will not in the slightest interfere with its benefical effects.

It's an insult to your intelligence for a dealer to endeavor to palm off upon you some nostrum of *unknown composition* in place of Dr. Pierce's world-famed medicines which are OF KNOWN COMPOSITION. Most dealers recommend Dr. Pierce's medicines because they know what they are made of and that the ingredients employed are among the most valuable that a medicine for like purposes can be made of. The same is true of leading physicians who do not hesitate to recommend them, since they know exactly what they contain and that their ingredients are the very best known to medical science for the cure of the several diseases for which these medicines are recommended.

With tricky dealers it is different.

Something else that pays them a little greater profit will be urged upon you as "just as good," or even better. You can hardly afford to accept a substitute *of unknown composition* and without any particular record of cures in place of Dr. Pierce's medicines which are OF KNOWN COMPOSITION and have a record of *forty years of cures* behind them. *You* know what you want and it is the dealer's business to supply that want. *Insist upon it.*

WOMEN HOTEL CLERKS.

How Those In Europe Impressed a Woman Traveler.

In most European hotels in the smaller places the visitor is met at the desk by a woman instead of by the perfunctory clerk so familiar to Americans at home. I think this is because a woman can be more successful in the art of common, everyday robbery. One doesn't like to argue about the prices with a sweet, smiling little lady, who seems to be exerting herself to an extreme degree to secure one's comfort and happiness, but if one happens to be making short stops here and there it is wise to put away suavity for the time being to the extent at least of an occasional mild protestation.

When madame smiles benignly and tells you that the room you have chosen, with everything included, will be 20 francs a day it is well to remember that "everything included" doesn't include everything by any means. There are a hundred and one little "extras," like tea, after dinner coffee, coffee and rolls in your room in the morning and such like luxuries, to say nothing of service, which must be paid for first hand if it is to be enjoyed at all. So at 20 francs madame is probably taking chances against a protest and will be enormously pleased with herself if none is forthcoming. It is the same all up and down the scale of prices, but I suppose those who can afford to go up the scale never care particularly.—Eleanor Franklin in Leslie's Weekly.

How to Make a Complexion Soap.

An ideal soap for the complexion is made by taking oatmeal, castile soap and carbolic acid, says the Boston Herald. The oatmeal should be boiled until it has the consistency of thick jelly, then the castile soap should be shaved fine and reduced to a paste with the addition of a little water, after which the two must be mixed together in proportion of two parts castile to one part oatmeal. A vigorous stirring is then given the mixture, and during the process a small quantity of peroxide of hydrogen or diluted carbolic acid is added, a teaspoonful to each quart of the mixture. The soap should then be allowed to cool and when hard may be cut up into cakes of the size most preferred. Oblong pieces about an inch long and wide by half an inch thick will be found more convenient than any other size.

How to Use Eggs For Dysentery.

The egg is considered the best of remedies for dysentery, says Health. Beaten up slightly, with or without sugar, and swallowed at a gulp, it tends by its emollient qualities to lessen the inflammation of the stomach and intestines and by forming a transient coating on these organs enables nature to resume her healthful sway over a diseased body. Two or at most three eggs per day would be all that is required in ordinary cases, and since egg is not merely medicine, but food as well, the lighter the diet otherwise and the quieter the patient is kept the more certain and rapid the recovery.

How to Make Tea Punch.

For a tea punch take one quart of good tea made to the proportion of four teaspoonfuls of good tea to one quart of boiling water, five tablespoonfuls clear lemon juice, two tablespoonfuls juice from tart oranges, two scant cupfuls granulated sugar and one pint apollinaris water. Stir the lemon and orange juice together and put them into a punch bowl with the tea, the apollinaris and a couple of large pieces of ice. If possible add a handful of fresh raspberries, but if these are not at hand use in their place an equal quantity of pineapple dice.

When a Man Lies.

"If you want to tell whether or not the man you are talking to is telling the truth, don't look him in the eyes," said a Denver bank teller to some friends last night. "I thought it was just the other way," said one of those present. "I've always understood that it made it harder for the liar if you looked squarely in his eyes." "That's a wrong impression," continued the bank teller. "The man who knows how to lie knows how to look you in the eyes when he's doing it. And the man who isn't a regular liar, but who has made up his mind to lie to you, decides first that he must look you straight in the eyes. It is the voice, when you don't look at the eyes, that tells you whether the other fellow is lying. We use the system frequently in the bank. A man will come in to tell us some business tale. We look at his feet or his hands or his knees, but never in his eyes. If he's telling the truth his voice will be firm and straightforward, and the absence of your gaze in his eyes will not affect it, but if he's lying he'll be confused by your action, and his voice will tremble. He'll hem and haw and clear his throat. You may rest assured then that he's stringing you."—Denver Post.

TROLLEY SLEEPING CARS.

One Dollar For a Berth From Illinois Points to St. Louis.

Sleeping cars will be placed in service Dec. 1 on electric car lines between central Illinois points and St. Louis, says a special dispatch from Bloomington, Ill. The price of a berth will be a dollar.

The cars are now in the shops of the company in Bloomington, Ill., ready for regular service. They cost $25,000 each and weigh 100,000 pounds. Each car has four 150 horsepower motors. They are of handsome equipment, and each can accommodate twenty persons.

These are the first interurban sleeping cars to reach Illinois, and the experiment will be watched with interest in transportation circles.

PERSONAL FAILURE.

People Who Are Always Driving Success Away From Them.

One of the strangest paradoxes in human nature is that men and women struggling, apparently with all their might, to succeed are yet constantly doing things, saying things and thinking things which drive the very success they are after away from them. They are all the time counteracting their efforts by some foolishness or weakness or indiscretion. They are saying things which prejudice people against them and doing things which destroy confidence. Although they apparently try very hard to build a foundation, they are all the time undermining themselves.

Men work like Trojans to get a coveted position and then, by getting puffed up with conceit or by some foolish or weak act, knock the scaffolding, which they have been years in building, out from under them, and down they go. Their lives are a series of successive climbs and tumbles, so that they never get anywhere, never accomplish anything worth while. Always tripping themselves up, neutralizing their work—this is their greatest stumbling block.

I know a powerful editorial writer who wields a strong, vigorous pen, but who at sixty years of age is just where he was at twenty. He has had scores of good positions, but he could not keep them because of his indiscretions, because of a hot temper and a sensitive nature which was always being wounded by trifles. There is no harder worker than he is. Every time he gets knocked down he begins at the bottom and starts planning and reclimbing, only to fall back again like the fabled frog trying to get out of the well.

Now, if this man had taken an inventory of himself in his youth and strengthened two or three little weak points, he would have been a giant in the field of letters.

There are thousands of men who are working as clerks or in very ordinary salaried positions who might have been employers or proprietors themselves but for some unfortunate weakness, some little deficiency in their natures or some peculiarity—something which might have been remedied by a little discipline and self study in youth. It is not an unusual thing to see a man in some subordinate situation who but for one of these little lacks would have been a bolder man than his employer. And so he has to submit to the humiliation of plodding through life in a mediocre position when he feels conscious that he has superior ability to those who are over him.

It is tragic to see thousands of people constantly pushing away from themselves through life the very success they are trying to achieve, pushing it away because they do not control a hot temper, because of some little indiscretion or other weakness or lack in their nature.

Others are always driving success away from them by their doubts, their fears, their lack of courage, their lack of confidence; driving it away by thought habits which repel success conditions. They never make themselves magnets to attract success, but keep so many enemies of achievement in their mind that there is no home for harmony there, no place for a strong purpose. They hold the failure thought, the doubt thought, the poverty thought, instead of clinging to the success thought, the thought of abundance, until they attract achievement and plenty. —Success Magazine.

Ways of the Flying Fish.

Flying fish swim in shoals varying in number from a dozen to a hundred or more. They often leave the water at once, darting through the air in the same direction for 200 yards or more, and then descend to the water quickly, rising again and then renewing their flight. Sometimes the dolphin may be seen in rapid pursuit, taking great leaps out of the water and gaining upon his prey, which take shorter and shorter flights, vainly trying to escape, until they sink exhausted. Sometimes the larger sea birds catch flying fish in the air. The question whether the flying fish use their fins at all as wings is not fully decided. The power of flight is limited to the time the fins remain moist.

From the Bountiful East.

A small proportion of the flora is indigenous. The majority came from the east, like all the great ideas on which our culture is founded, and were developed and improved on this classic soil. Italy received the lemon and the orange from the Semites, who in their turn had obtained them from India. The olive, the fig, the vine and the palm were grown by the Semites long before their cultivation penetrated to the west. The laurel and myrtle, indeed, are indigenous in Italy, but their use for ceremonial purposes came across the Mediterranean from the east. The home of the cypress is not in Italy, but in the Greek archipelago, northern Persia, Cilicia and Lebanon.—From Strasburger's "Riviera."

The Difference.

Small Boy—Pa, what is the difference between a pessimist and an optimist? Pa—Well, let me see if I can illustrate. You know I am often discouraged, and things don't look to me as if they'd ever go right. Well, at such times I can be said to be a pessimist. But years ago, when I was a young man, everything looked bright and rosy, and I was always hopeful. Then I was an optimist. Now, my son, can you understand the difference between a pessimist and an optimist? Small Boy—Oh, yes; one is married and the other isn't.—Harper's Weekly.

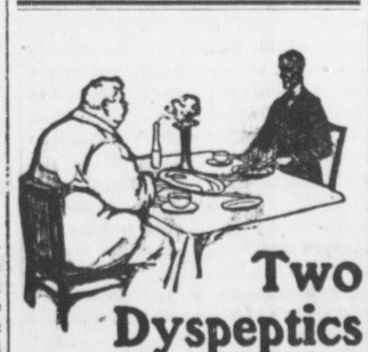
—Impure blood runs you down—makes you an easy victim for organic diseases Burdock Blood Bitters purifies the blood—cures the cause—builds you up.



Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatine.

Kodol

For Dyspepsia

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol relieves Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

Digests What You Eat

Rests the stomach, rebuilds the tissues and gives firm flesh.

In bottles only. Two sizes, fifty cents and one dollar.

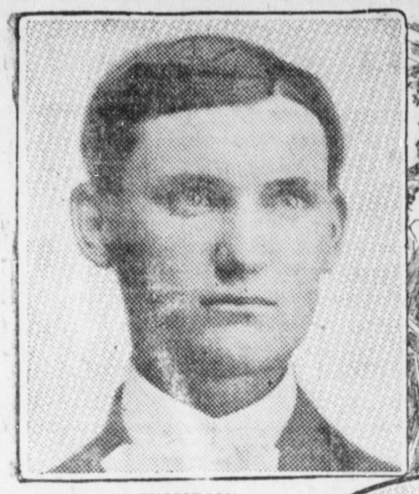
STURDY FARMERS KEEP OFF ALL CATARRHAL ILLS BY TAKING PE-RU-NA.

Pe-ru-na, the Most Reliable Remedy For All Climatic Ailments.



MR. GEO. H. THOMPSON.

At Work On the Farm and Feeling Well All the Time.

Geo. H. Thompson, Craft, Miss., writes:

"I have been cured of catarrh by your medicines, Peruna and Manalin. I had been affected with catarrh of the stomach about all my life, and was taken bad every Spring and Summer.

"I used several kinds of patent medicines, but they did me no good. I then took a treatment under an M. D., which did me but little good. By this time I had come to where I could eat nothing but a little soup. I had severe pains, had lost in weight and could not do anything. I began taking your medicines, Peruna and Manalin. I then weighed 126 pounds, but after taking several bottles of Peruna and one bottle of Manalin, I weighed 166 pounds.

"I am now at work on the farm and feel well all of the time. I eat all I want to and my friends say that I look better than ever before. I will ever praise Peruna for its healing power."

Pe-ru-na Is a Systemic Remedy.

If Peruna proves efficient for catarrh in one place, it will be equally potent in any other place, because it is a systemic remedy.

The people generally are very much misinformed as to the nature of catarrh.

Catarrh is usually believed to be confined to the head, nose and throat. Lately we sometimes hear of catarrh of the stomach and catarrh of the bowels. Seldom, if ever, do we hear of catarrh of any other organs.

It is not because these organs are not subject to catarrh, nor that catarrh of these organs is not a very common disease, but simply because it is not generally known that affections of these organs may be due to catarrh.

MR. W. J. TEMPLE.

Climatic Ailments Overcome By Pe-ru-na.

Mr. W. J. Temple, R. F. D. 3, Delaware, Ohio, writes:

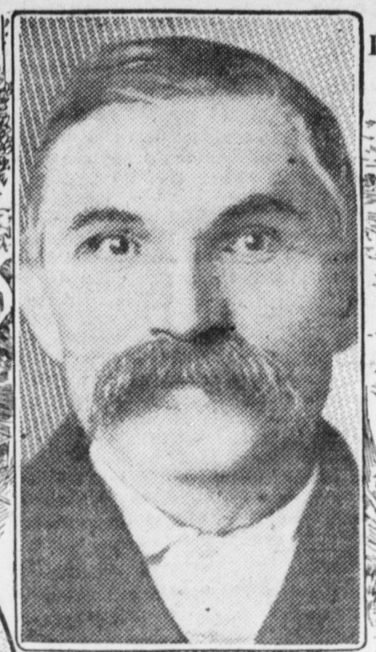
"I am a farmer and so necessarily must be exposed to all kinds of weather. About three years ago last winter, I was taken sick with bowel and stomach trouble.

"One doctor called it ulceration of the bowels, another called it colitis. Another doctor helped me temporarily.

"Then a druggist recommended Peruna and I followed his advice. I took altogether five bottles and I consider myself a well man.

"Before using Peruna, it was utterly impossible for me to do a day's work, but now I can do farm work without the least trouble or fatigue. I consider Peruna the best medicine and tonic on the market.

"I had not eaten a meal for five years without distress until I took Peruna. I have recommended it to several friends with good results."



MR. GUSTAV SCHMIDT.

Chronic Catarrh of Head and Throat Lasted Thirty Years.

A Letter Praising Pe-ru-na.

Mr. Gustav Schmidt, Spring Valley, Ill., writes:

"I had catarrh of the head and throat for over thirty years. It became worse every year. About three months ago I commenced to take Peruna and Manalin, and now I am entirely cured of that troublesome sickness. Your medicine is surely a blessing to mankind. You can truly say that you have not lived in vain, Doctor, and I thank you for the good you have done me. May you enjoy a long life to help suffering humanity."

DR. HARTMAN, THE FARMER.

Dr. S. B. Hartman, the inventor and original manufacturer of Peruna, is one of the best farmers in the Middle West.

His farm comprises several thousand acres of the best land in the State of Ohio, located near the City of Columbus.

As an importer of French Percheron and German Coach horses, the Doctor has not an equal in this country.

The fowl-raising department is a marvel of ingenuity and perfection; but, perhaps the dairy department is where the Doctor shows his greatest sense of order and sanitary science.

His milk cows, of the purest Jersey stock, have all been subjected to the tuberculin tests, and he gives to the City of Columbus a pure milk, certified by the Board of Health.

The milk stables, the milk men and the whole process of milking are absolutely faultless and clean.

The Doctor himself, past 70 years of age, is the managing head of the farm.

He himself supervises the working details of every department.

He is a model of strength and vitality, and since Peruna is the only remedy he ever makes personal use of, his physical condition is a testimonial to the efficacy of Peruna of greater value than could be framed in words.

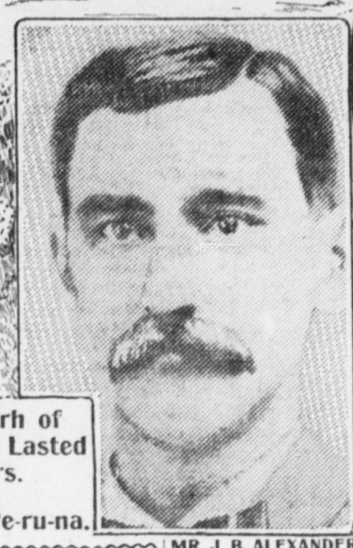
Dr. Hartman is one of the few doctors who take their own medicine and his splendid physique and strength in his old age are an eloquent argument for Peruna very difficult to gainsay.

Dr. Hartman, being a farmer himself, knows what the farmer needs and in speaking of Peruna to the farmer he speaks to his own kind of people.

Pe-ru-na For Bowel Trouble.

Mr. Stanly Bell, Ashley, Ohio, writes:

"I was afflicted with rheumatism so badly that it was painful for me to move. I took two or three bottles of Peruna when I began to feel better. It also gave me relief from bowel trouble."



MR. J. B. ALEXANDER.

A Necessity In the Home.

J. B. Alexander, publisher of the "Fruit and Floral Guide, a Magazine of Horticulture," published in Hartford City, Ind., says of Peruna:

"I was afflicted with catarrh of the throat and head for over ten years. I was treated by many physicians, but grew worse until I was seldom able to go out in cold weather.

"About one year ago I was advised to try Peruna, which I did, and I am now entirely well of the catarrh.

"Peruna is a necessity in our home. With the first symptoms of a cold we use it, and are never afflicted with catarrh.

"I advise all who are afflicted with catarrh to try Peruna. There is certainly nothing equal to it as a catarrh medicine."

71 Years Old and Able to Work.

Mr. John G. Hirdler, Garfield, Kas., writes:

"I was injured by a fall on the railroad and my entire nervous system was impaired by the same. The help of a physician was useless.

"I then tried Peruna and after using it for three months was entirely well. I am 71 years old and my work on the the railroad is hard and tedious, but I can work like a young man in all kinds of weather, heat, cold, rain, snow or storm alike."

MR. HENRY SCHROEDER

Pe-ru-na, a Household Remedy.

Mr. Henry Schroeder, Estey, Mich., writes:

"I suffered for almost ten years with catarrh of the stomach and all doctoring was of no avail. I took nine bottles of Peruna and two of Manalin and am now entirely cured.

"I recommend the medicine to all who are afflicted with this disease. It is my household friend."

One of Dr. Hartman's Grateful Correspondents.

Mr. W. R. Callahan, proprietor of Big Hill Farm, and prominent fruit grower and stock raiser, Glenvar, Va., writes:

"I write to express my kindness toward you and your good medicine, Peruna.

"I had a very bad spell of sickness and could not eat anything at all. My head, stomach, in fact, my whole body ached, and it looked as though nothing would do me any good. I had almost given up.

"I decided to try a bottle of your Peruna and before I had taken half the bottle my appetite came to me and my head became all right. In fact, I was all right all over. Peruna cured me."

While Peruna is not confined to any one class of people, yet it is probably true that the farming class more than any other, rely upon Peruna for the prevention and cure of all climatic diseases.

When your Watch Stops

You cannot make it go by shaking it.

When the bowels are constipated you can disturb them with cathartics but, like the watch, they will not be able to do their allotted work until they are put into proper condition to do it.

One cannot mend a delicate piece of mechanism by violent methods, and no machine made by man is as fine as the human body.

The use of pills, salts, castor-oil and strong cathartic medicines is the violent method. The use of the herb tonic laxative,

Lane's Family Medicine

is the method adopted by intelligent people.

Headache, backache, indigestion, constipation, skin diseases—all are benefited immediately by the use of this medicine.

Druggists sell it at 25c. and 50c.

Some Girls in Bellefonte.

It is sad indeed to see and know the lives that some of our girls in Bellefonte are leading. It is something awful the depraved condition that some of them have fallen to and they seem almost hopeless. Girls coming from good respectable families here in the town have been seen in places where no decent girls would ever think of going, and then night in and night out they trot to the train, laugh and swear at the boys, and sometimes it is really impossible for people who are going away and coming home to get through the crowd. Only last week we saw two girls standing over at the upper end of the platform talking to two fellows and smoking cigarette. Girls, shame on you, it is bad enough for boys to smoke those coffin nails let alone for you to indulge in the habit.

Stay at home with your mothers at night don't go running around the streets with every Tom, Dick and Harry you can get a hold of. Stay at home read, do fancy-work, mend stockings, sew carpet rags, anything but run the streets and to the trains. Do you know when a young man wants a wife he don't select one from the streets because he thinks you wouldn't make a good housekeeper. The girl he wants for a helpmate through life is one who is pure and good and one who has been taught by a christian mother how to make a home happy and cheerful and to be economical in everyway. Don't let these acts of yours occur again because you are not only disgracing yourselves, but the most of you have good mothers at home who no doubt are praying for you, and you are making the burden for them all the harder to bear.

A Soft Drink Plant.

From all indications Snow Shoe is going to be a Temperance town. Great piles of ice are being stored away by the people up there to make good cold ice water during the hot summer days, and last week George B. Uzzle and Beany Hall established a soft drink plant. The boys expect to do an immense business in this line and no doubt they will be successful. May the good work prosper and be encouraged by the citizens of that town.

An Accident at Unionville.

On Tuesday a section crew along the Bald Eagle Valley was on their way to Unionville on a hand car and when near what is known as Shipley's crossing a dog ran out and was struck by the car. William Eckenroth one of the crew who had a hold of the handles was riding backwards when the car struck the dog and was thrown to the ground. The truck jumped the track and rolled on Mr. Eckenroth and cut his body and head in a fearful manner. His injuries were carefully looked after by Dr. Irvin of Unionville.

CORRESPONDENCE

Moshannon.

The spring election will soon be here and now is the time to consider who is wanted for the various offices. Some very important offices are to be filled at this election. And this is the time to think about it and after election, keep quiet.

The Modern Literary Exercises, on Friday night, were unusually interesting. The house was filled to its capacity. Pine Glenn and Snow Shoe, were well represented by a large number of their popular young men and ladies. The program rendered was equal to any of the preceeding ones and was heartily enjoyed by all. The new president Edward Gleason, filled the chair admirably. Better programs than ever are expected from this on.

A festival and social will be held in Groe's Hall, on Friday and Saturday evenings, Feb 15, 16, for the benefit of the Presbyterian church. Everybody is invited to come to this important social gathering to have a jolly good time and help a good cause.

We note particularly that H. S. Cramer president of the "Bachelor's Club" is making good use of his horse and sleigh of late, and he most always has a young lady by his side. He says he is going to make good use of the sleighing while it lasts. We will be sorry, however, to lose him as president of the Club.

Miss Lucy Fleming, is back again to our town after an absence of several weeks, with her sister who lives in Cherry Tree, Indiana, Co.

J. T. Lucas, spent a few days with his son C. C. Howard this week.

James Williams visited his father who is quite ill, at Grahampton, this week.

Jennie Lucas and Laura Williams attended the teacher's institute at Philipsburg on Saturday.

Hugh Ward made a business visitor in Bellefonte recently.

Clarence Lucas tells us, he will be in the wall paper business this spring and has a complete line of samples to show to persons having papering to do this season.

Mrs. M. D. Kelley, Mrs. L. Redding, Mrs. W. A. Sickles and Miss Anna Redding, of Snow Shoe, took advantage of the fine sleighing and went for a ride on Wednesday (Feb. 6) which they enjoyed very much as Mrs. Kelley's prancing black steeds are among the best in Snow Shoe.

Centre Hall

Jonas Boal of Tusseyville, a veteran of the Civil war died on last Tuesday the 5th inst and was buried in the Reformed and Lutheran cemetery at that place on Thursday. He is survived by his widow and three sons and three daughters, Thomas, living on one of the Brockerhoff farms; John, at Peru, Frank in Altoona; Emma and Agnes at home and Nora married to a Mr. Jodon living near Colyer. The pallbearers were all old soldiers.

John T. Lee who has been in poor health for the past year died on last Saturday evening and was buried on Wednesday. He was a member of the Lutheran church and of Old Fort Lodge No. 537 Free and accepted Masons, and was very faithful in the performance of his duties in both church and lodge. His funeral was in charge of the Lodge He is survived by his widow, two sons, Arcey of Allegheny City; Witmer at home, and one daughter Grace married to George Breon.

Malcolm Fleming of Wheeling, W. Va. is spending a few days with his aunt, Miss Kate Fleisher and visiting old friends. Mr. Fleming was born and raised in Centre Hall, being a son of Julian A. Fleming, now of Pittsburg, but learned the trade of tailor in Baltimore, afterwarks working in Washington, D. C. He is now located in Wheeling.

Landlord Runkle of the Centre Hall hotel is able to be down stairs and on a fair way to final recovery.

Gross Allison son Dr. J. R. G. Allison after a siege of illness, was able to resume his place as violinist in the choir of the Centre Hall Presbyterian church last Sunday,

Lemont.

Wm. Rishel and John I. Williams attended the funeral of a relative in Altoona over Sunday.

Mrs. E. H. Marshall and son William of Filmore spent last Friday at the home of Wm. Chreck.

Protracted meetings are now in progress at Houserville in the U. B. church.

Two sled loads of young people of this place attended "Weary Willie" at Garmans opera house at Bellefonte last Friday evening.

J. S. Herman and son Ward transacted business in Bald Eagle last week.

R. F. Evey of Watsontown spent a few days of last week and this in town.

John M. Coble transacted business in Boalsburg on Monday.

R. K. Hoy had the mistortune to mash his thumb last week.

John Osman has secured a position as foreman in the Sunbury yards.

D. B Getz is clerking in R. F. Evey's store at Watsontown.

Millheim.

A. E. Zeigler of Linden Hall mercantile appraiser for this County was in town and vicinity last week attending to the duties thereof.

W. S. Mallalieu, manager of the Penna. Telephonne Co. was in town last week looking after the interests of said company. He was accompained by Ben Tate, also an employee of the company.

Elias Krumrine of "Light End" Union County, a former resident of Penn township shook hands with his acquaintances last week.

The new service pension bill will affect a few soldiers here.

T. N. Reber of Lewisburg was in town on Monday.

Dr. Frank Barker of Ingleby killed a garter snake last week crawling on the snow.

The ice houses are all filled in the town with a good quality from 5 to 10 inches thick.

Danny Zeigler of Centre Hall was in town for few days.

Attorney N. B. Spangler and John Bower accompanied by a stenographer was in town last Monday taking testimony before his honor Esq. Musser in the Smith and Corman Case.

Port Matilda

H. E. Woodring employed by Eller & McKinney hauling logs, when crossing the railroad a mile and a half east of this place, his team was struck by a freight train going east knocking both horses off the track one of them badly bruised, braking the tongue in his sled but Mr. Woodring escaped unhurt.

The sleighing with us is fine and the ice men are all busy now putting up their ice.

Etta Woodring of Tyrone has been visiting at the hotel Woodring for several days.

H. F. Chaney left on Sunday evening to meet some parties in Boliver on business which is likely to some day boom our littlie place of Port Matilda.

The M. E. church is holding their revival meeting which is well attended and have had several conversions the last couple weeks, Rev. J. B. Durkee, pastor.

The I. O. O. F. lodge in this place had an oyster supper furnished them at the Woodring house on Saturday evening all were well pleased that attended it, the tables were just loaded with good things.

James Jordon and Mr Chatman are rushing in the paper wood from the Allegheny mountains for the paper mill Co. at Lock Haven while the sleighing is good.

GARMAN'S.

"Mine Host Uzzie" Almost Well.

For over six weeks our good friend John Uzzle of Snow Shoe has been suffering fearfully from a large carbunkle on his back. In fact at times the attending physicians thought John would never recover as there was indications of blood poison which they said would likely take him off. But today the "Old Buck Tail" is as lively as ever and around attending to his immense trade at the hotel. Mr. Uzzle is having some magnificent ice cut on his two large lakes and has filled nearly every ice house in Snow Shoe. Last week he stored 50 sled loads in his sheds. John says the "Ice Trust" is up against a stiff proposition now and that they cannot hoodoo the people of Snow Shoe next summer.

The many friends of Mr. Uzzle's in Bellefonte will be pleased to know that he is nearly well again and that he is meeting with success in the Mountain city.

MUTUAL SPANKING BEE.

Girls and Boys Spanked In Turn at Football Celebration.

The wildest, noisiest celebration of a football game ever seen in Chicago shok the downtown hotels the other day, says a Chicago dispatch.

Twenty Minnesota rooters took possession of the Great Northern lobby, dining rooms and corridors. They marched upstairs and down, singing and shouting. Encountering another party of boys and girls from Minnesota, the leader shouted:

"Let's initiate the girls!" adding, "Girls, it has been decided that each of you be spanked."

Then he seized a stately blond, carefully but firmly placed her across his knee and gave her a rousing spanking. A second and a third met a similar fate. By this time each boy had a girl across his knees, and amid laughter, shrieks and screams, while the hotel guests looked on, the "first degree" was given.

Then the girls attacked the boys and in many instances administered a hearty return for the initiation they had themselves received.

Man's Love For Woman.

"If a man loves a woman for her looks he will love her for five years. If he loves her mind he will love her for ten years. If he loves her ways he will love her forever." And every woman believes when she marries that her lover loves her ways.

Lifting a Kettle of Hot Water.

Some time when the teakettle is bubbling and boiling on the kitchen range lift it quickly by its handle and set it on the open palm of your other hand. This sounds like a very foolhardy thing to do—as if your hand might be blistered in a twinkling—but you will find that you can hold the teakettle which has just come from a roaring fire for some time without hurting you. Try it and then see if you can tell the reason why you are not burned. Be sure, however, that the water is boiling strongly before you make the experiment.

A Kippered Pastor.

A French Protestant pastor was the guest of a Scottish preacher at a manse. One morning kippered herrings were served at breakfast. The French pastor asked the meaning of "kipper." His host replied that it meant "to preserve." On taking his leave next day the French pastor, wringing his host's hand, said, "May the Lord kipper you, my good friend."

Postage Stamps.

Postage stamps are peculiarly liable to become septic and to convey deadly germs, says the British Medical Press and Circular, a fact that cannot be too widely known to the public who find in it a popular substitute for sticking plaster.

What a "Hurricane" Is.

"Hurricane" is the old Spanish name for a West Indies cyclone, but it is used by modern meteorologists to designate a long continued wind of extreme violence. In Beaumont's scale the different winds are classed as "light," "gentle," "fresh" and "strong" breezes. The next is a "stiff" breeze, then a "strong" wind and then we strike the "gales." The "gales" run through three or four classes, the last merging into the "hurricane."

BELLEFONTE IN NEED

Of a Board of Trade or "a Business Men's Booster Club."

MANY RICH PEOPLE

In Bellefonte With Their Money Tied Up—We Have the Richest Town in the State for its Size.

GET TOGETHER AND DON'T "KNOCK."

The town of Bellefonte should either have a board of trade or a club to boost it, or to place before prospective manufacturing companies its advantages as a town for manufacturing industries.

In Dayton, Ohio, they have what is the "Business Men's Booster club," the object of which is "to endeavor to bring good live manufacturing companies to that city. This club has a regular amount on subscription at all times which is subject to the call of the board of directors as needed to secure industries.

This town has all the advantages necessary to secure industries of value. The freight rates on delivered fuel and raw material are as good, if not better, than many other towns of its size in the state, while its water supply is a great deal better than nine out of ten other towns.

The citizens of Bellefonte and vicinity have on deposit in our three banks over $3,000,000 a part of it drawing about 3 per cent interest. If this money or part of it were put in industries it should and would bring a great deal more to its owners and at the same time boost real estate values and increase our population and benefit everybody concerned.

The one trouble with Bellefonte citizens is that there are among them more "knockers" than "boosters." Among the former are many of those who prefer to let their money lie in the banks and "knock" the town as an excuse for doing so. We hear them talk about high freight rates, poor railroad facilities, poor municipal management and the like. This sort of talk is "knocking" our home town and will never encourage industries to locate with us. It may be more emphatic than polite, but we feel like saying to these people shut up or loosen up.

Bellefonte has today as good streets, better water supply, better fire protection and is as well governed perhaps as any other town in the state.

Very many young men, seeing the drift of things have gone elsewhere and made money and a name for themselves. Some of us are here, have tied to our native town and intend to stay tied. Our town is not perfect; no town is; but let the "knockers" knock at the door of the council chamber, the county commissioners' office or higher if necessary, if things municipal go wrong—and they might be bettered—knock loud enough to be heard by the town but not loud enough to be heard outside the town.

What the town now most needs is a "Booster" club or a board of trade with the necessary funds to do something with. Can't we have it?

—"I suffered habitually from constipation. Doan's Regulets relieved and strengthened the bowels, so that they have been regular ever since."—A. E Davis, grocer, Sulphur Springs, Tex.

RACY MRS. ATHERTON.

The Brilliant Author's Reply to an English Editor's Offer.

So many people in England swear by the London Times that when Gertrude Atherton, the California novelist, told its editor that he might "go to the devil" her boldness caused a sensation, to put it mildly, in British literary circles. Mrs. Atherton, who is a great-grandniece of Benjamin Franklin, is accustomed to making daring flights in fiction, and a departure from the conventional in the use of language is right in her line. There had been a controversy in the Times' book department over the price at which the author's latest novel, "Rezanov," has sold in England, and the editor had offered to publish it at 2 shillings instead of 6, the present price. It sells in the United States for 50 cents. The Times editor thought it would bring the novelist larger royalties if also sold in England at a cheaper price. Mrs. Atherton finally wrote to the London journal's head:

GERTRUDE ATHERTON.

"With my publisher, Murray, I will remain as long as he will have me and hereby invite you and all your subordinates in my second best Californiaese to go to the devil. I am sick of the whole controversy and am too busy with my new book to bother with you any further."

Mrs. Atherton, who has been a widow for some years and now lives abroad, has always had a mind of her own. She says of her girlhood:

"When I was a little bit of a girl I used to long for adventure. I would run away from our little ranch and plunge into the woods. My mother would send somebody to hunt for me, which was a wild goose chase. When I chose to be found I would be. Then I was carried back and spanked. Every day I got a spanking. Oh, I was dreadfully spoiled, as bad as I could be."

Style and Comfort.

How many rooms there are, correct and beautiful, which fail of being lovable! Everything is perfect. Some "period" has been carried out faultlessly by a professional interior decorator of big reputation, with the result that the room has style and distinction, is coldly, correctly exquisite or magnificent, and yet no one would voluntarily choose that room to live in. No one would deliberately elect to spend a delightful afternoon in it with a novel. No one would dream of repairing to it for the purpose of being unmitigatedly lazy. The fact is art and comfort are not synonymous terms by any means. Many an artistic room is uninteresting, cold and characterless because it bears no stamp of personality, yet correct style and comfort can and ought to go hand in hand.

The Pepper Vine.

The pepper vine grows best in a wooded valley where there is plenty of moisture and abundant foliage to protect it from the heat of the sun. It is given a rude sort of cultivation. The growers plant it, keeping the grass from its roots, and when the tree near which it is planted has no lower branches strings or poles are placed in proper position to enable the vine to climb the tree. It needs no further attention.

Sarcastic.

"Yes, my dear; I believe in transmigration of souls. I may be a brute in my next life."

"Wouldn't that be discouraging—or don't you care for a change?"—Houston Post.

In Plain Words.

"What," asked the judge, "was the cause of the altercation?"

"I didn't see anny, yer honor, but it was him callin' me a liar that shtarted the fight."—Chicago Record-Herald.

Cause of His Joy.

"What are you looking so happy over, old man?"

"I am rejoicing over the birth of twins."

"Great Scott! I congratulate you!"

"Don't congratulate me. Go and congratulate Evans. He's the lucky man. I never did like him."—Philadelphia Inquirer.

Stole His Livelihood.

Tattered Timothy—I hate doctors. Tiepass Thomas—What fur? Tattered Tim—One of 'em cured me o' fits w'en I wuz a kid. Gee, I cud work up some sympathetic crowds if I c'd have one right now!—Cleveland Leader.

HARRY K. THAW'S SISTER.

Pittsburg Heiress and Beauty Who Is Now Countess of Yarmouth.

The Countess of Yarmouth, who came to America to attend the trial of her brother, Harry K. Thaw, for the killing of the architect, Stanford White, was Miss Alice Thaw, and her marriage on April 27, 1903, at her mother's home in Pittsburg to the Earl of Yarmouth was one of the leading society topics of the year.

According to some authorities, it was Harry Thaw himself who brought about the marriage between his sister and George Francis Alexander Seymour, earl of Yarmouth and eldest son and heir of the Marquis of Hertford.

THE COUNTESS OF YARMOUTH.

At any rate, in a signed statement issued after the nuptials the young man now on trial for his life wrote:

"It is a great union—a union between one of the oldest families of England and one of the most prominent families of the United States, if I do say it myself. I am delighted. I feel like a boy out of school. An earl is my brother-in-law. Why shouldn't I be glad?"

The earl had a good many financial troubles in this country prior to his marriage to Miss Thaw. Tailors, landlords and other creditors put him through some rather embarrassing experiences. But a big marriage settlement went with his bride, and it has proved a very convenient asset in keeping up the family estates in England. Mrs. William Thaw at first opposed her daughter's marriage to the earl and sent her away to Florida to get her out of the vicinity of the English lord. The latter pursued her to the sunny southland, on a tip from Harry, it is said, and finally the obdurate parent was won over.

MUTUAL SPANKING BEE.

Girls and Boys Spanked In Turn at Football Celebration.

The wildest, noisiest celebration of a football game ever seen in Chicago shok the downtown hotels the other day, says a Chicago dispatch.

Twenty Minnesota rooters took possession of the Great Northern lobby, dining rooms and corridors. They marched upstairs and down, singing and shouting. Encountering another party of boys and girls from Minnesota, the leader shouted:

"Let's initiate the girls!" adding, "Girls, it has been decided that each of you be spanked."

Then he seized a stately blond, carefully but firmly placed her across his knee and gave her a rousing spanking. A second and a third met a similar fate. By this time each boy had a girl across his knees, and amid laughter, shrieks and screams, while the hotel guests looked on, the "first degree" was given.

Then the girls attacked the boys and in many instances administered a hearty return for the initiation they had themselves received.

Costly Christmas Novelties.

One of the latest novelties in the way of Christmas gifts made of silver is a little six inch reproduction of a motor boat with a well in the center, a steering wheel and the regulation torpedo boat stern, writes a New York correspondent of the Pittsburg Dispatch. These miniature craft are made in two styles, one to appeal to men and the other to women. The first style converts the miniature craft into a receptacle for cigarettes, the well furnishing the place for the short smokes to lie, while up in the bow of the craft is a place for matches nestling under a hatch that lifts up in the most seamanlike way, another hatch in the stern affording a place for ashes. The "feminine" boats are fitted up as jewel cases, the well of the craft being lined with plush, covering both the tiny seats and the "floor boards." They are rather costly trifles, since they are priced at $20.

What a "Hurricane" Is.

"Hurricane" is the old Spanish name for a West Indies cyclone, but it is used by modern meteorologists to designate a long continued wind of extreme violence. In Beaumont's scale the different winds are classed as "light," "gentle," "fresh" and "strong" breezes. The next is a "stiff" breeze, then a "strong" wind and then we strike the "gales." The "gales" run through three or four classes, the last merging into the "hurricane."

HABITS OF THE RICH.

Samples of Millionaire Extravagance In the Metropolis.

Zola in his youth, before fame came to him, wrote some stories about millionaires, wherein it seemed to him he exaggerated shamefully in his descriptions of the costly homes and habits of the rich, but later on, when Zola became a friend of millionaires, he found that his accounts of their extravagance had fallen far short of the truth.

In the same way stories about the extravagance of American millionaires that sound like exaggerations may also fall short of the truth. Here, for instance, are some facts that an interior decorator of New York supplied the other day. They sound extreme, but let Zola be remembered.

A man bought for his hall twelve antique marble columns at Pompeii. Finding he could use only eight of the columns he had the remaining four destroyed, although he was offered for them twice what he had paid. He had paid $5,000 apiece.

Aubusson carpets, with a pile three inches thick, are often made to order at a cost of $40 a yard. Such a cost, though, is nothing beside what is ordinarily paid for antique rugs. They, measured by the yard, often cost $500 or $600 a yard.

Chairs of ivory inlaid with wood are occasionally sold at $500 apiece.

One millionaire's piano cost $150,000. A five inch band of ivory, four years in the carving, runs around the case, which was decorated by Everett Shinn.

The gold and silver plate of one household requires an expert to look after it. The man is a goldsmith, and his salary is $2,000 a year.

Billiard rooms sometimes cost $50,000 to furnish. The tables and cues are inlaid with ivory and gold.

Certain wines—Schloss Johannesberg, for instance, stamped with the crest of Prince Matternich—are sold at private sales to millionaires for $40 and $50 a bottle.

Automobiles of ninety or more horsepower, made to order, will cost from $30,000 to $40,000. Some millionaires keep a dozen or more automobiles, with a head chauffeur at $4,000 or $5,000 a year salary and two or three assistants at $25 a week each.

Then there is the ocean going yacht, which cannot be maintained in the most modest way at a smaller annual expenditure than $25[illegible]—New York Press.

A Peculiar Animal With a Sort of Human Appearance.

There used to be traditions among the sailors of mermaids at sea, half women and half fish, and there are fishes which may have given rise to the belief, from their resemblance to human beings. One of these is called the man fish.

This animal inhabits the mouths of the Amazon, Orinoco and other South American rivers. Its name (manatee) has reference to the peculiar form of its swimming paws. These are composed of soft parts and a membrane which infolds the bones of the hands and fingers. But in the manatee four flat nails are seen attached to the edge of the paw.

The tail also is peculiar, being about one-fourth the length of the body and oval shaped, not unlike that of the otter. The head is round, attached to the body without a neck. The muzzle, in which the nostrils are placed, is large and fleshy, the upper lip cleft and bristled at the side, the lower lip much shorter and the mouth small.

When seen at a distance, with the anterior part of the body out of the water, they are sometimes taken for some creature approaching to human shape. The effect has been deepened by the thickset hairs of the muscle, giving somewhat the appearance of human hair or a beard. Thus the Spanish and the Portuguese give the manatee a name which signifies woman fish, and the Dutch call it the dudong baardmannetze or little bearded man.

How President Roosevelt's Youngest Son Confused Class Room.

For a few seconds the other day Quentin, youngest son of President and Mrs. Roosevelt, created an uproar in one of the class rooms of Force school, on Massachusetts avenue in Washington, where he is enrolled as a pupil, says the Washington Post. It is said he assumed the prerogatives of his teacher for a brief period while she was out of the room.

The teacher had been making an effort to impress upon the pupils the evil of overindulgence in certain beverages.

"All those who drink coffee for their breakfast may stand," she said.

A large portion of the school arose, and then the teacher said:

"Now, all those who take tea either in the morning or evening may arise."

Again a part of the school stood.

Just at that moment the teacher was called from the room. As she disappeared through the door Quentin jumped to his feet, held up his hand to command attention and said:

"All those who take champagne for their lunch may now stand on their heads."

Fleshmaking Food.

Cream gruel, according to an eminent English authority, is the ideal nourishment for thin folk. A teacupful taken at night immediately before retiring is said to give marvelous results. To be at its best it must be perfectly made, then thinned with sweet cream. Taken in that condition and warm, it is agreeable as well as fattening and produces just that sense of satisfied hunger essential to ideal rest. It is claimed that perseverance in the treatment yields such apparent results that the cheeks can be seen to expand from day to day.

EASY DOOR FASTENERS.

Only One Kind of Lock the Expert Burglar Can't Pick.

"There's only one lock in the world that I can't open if you'll give me a few minutes at it, and as for ordinary door and drawer locks, I'll open them as easily as if there was no lock there. Any expert burglar can do the same."

The foregoing statement was made by an experienced locksmith of Kansas City.

"Few persons know how insecure their homes are," he continued. "Few persons realize that the average lock is absolutely worthless for keeping out an experienced burglar. The ordinary door lock is good for nothing but reminding casual business or social callers that they must ring to be admitted. None of these ordinary 'door fasteners,' and that's the best you can call them, will deter a burglar two whole minutes. If there's no key in the lock, he soon fits one to it. If there is a key in the lock, he inserts a pair of pinchers and in ten seconds has it opened. Understand me, I am speaking of the experienced burglar. The clumsy burglar is the one who gets in trouble. He'll fumble around with a lock until somebody hears him. There is only one unpickable lock made. That's the six pin lock used by the government. It will defy any expert. There are six little steel pins in the lock, which have to be raised just a certain distance to open it. Some of the pins are one-fourth of an inch long and some of them a half inch. If one of the pins lacks even a hairbreadth of being raised the proper distance, the lock will not open. It baffles all the experts."

This locksmith is so expert he can open the majority of safes by putting his ear to the combination and listening to how the tumblers click into place as he turns it.

"I intended at one time to be a burglar," this locksmith declares. "I had it all planned out—even had a set of burglar's tools made. Then I decided that honesty was the best policy, and I stuck to my trade."—Kansas City Star.

Alabaster Ornaments.

The best method of cleaning any alabaster ornament is to first remove any grease with spirits of turpentine and then to place the article in water for ten minutes or a little longer if very dirty. Next rub all over with a painter's brush and leave to dry. Then rub again with a soft brush dipped in plaster of paris.

Cruel.

Miss Fortysummers—I had a proposal last night and refused it. Miss Crusher—You are always thinking of the welfare of others, aren't you, dear?

The tomorrow of which we dream never comes, but the real tomorrow upon arrival is merely a commonplace today.—New York Tribune.

"The blood is the life." Science hers never gone beyound that simple statement of scripture. But it has illumimate that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are effected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. No one can be well balanced in mind and body whose blood is impure. No one can have a wholesome and pure life unless the blood is pure. Foul blood can be made pure by the use of Dr. Pierces Golden Medical Discovery. When the blood is pure, body and brain are alike healthy and life becomes a daily happiness.

THE WOMAN WHO COUGHED.

Catarrh had nearly ruined me. It had eaten away the partition in my nose; produced Asthma, Bronchitis, Rheumatism; ruined my stomach; in fact, gone all through my system. Then Grip finished me. I was a wreck; took cold at nothing; and coughed day and night. The doctors dosed me with opium and quinine. No good. Cough "cures"? Bah! Then Brazilian Balm renovated me. Killed every germ. Took 10 $1.00 bottles. Now I'm like a girl of 18.

Deception of Wild Birds.

Falcons—hawks, the largest species—can compress their features and look very thin if they think it necessary to do so. As to the owls, they can hump into any position they think most suitable. It is useless to look for these self preserving traits in any of the family kept in zoological collections, for the birds are so accustomed to see large numbers of people passing and repassing or standing in front of them that they treat the whole matter with perfect indifference. They know that at a certain time their food will be brought to them and that they are otherwise perfectly safe. The raptures in a wild state have a bloom on their plumage, like the bloom on a bunch of grapes, which is not so often seen when in captivity.

A Train For Tyler.

During Mr. Tyler's incumbency of the presidential office he arranged to make an excursion in some direction and sent his son Bob to arrange for a special train. It happened that the railroad superintendent was a strong Whig. As such he had no favors to bestow on the president and informed Bob that his road did not run any special trains for the president. "What!" said Bob. "Did you not furnish a special train for the funeral of President Harrison?" "Yes," said the superintendent, "and if you'll bring your father in that condition you shall have the best train on record."

GENTLEMEN OF THE ROAD.

The Famous "Sixteen Strings Jack" and Dick Turpin.

At the Rose tavern, a noted gaming house standing in Marylebone gardens early in the eighteenth century, Sheffield, duke of Buckingham, used to toast his companions at their farewell dinner when the season ended in the ominous words, "May as many of us as remain unhanged next spring meet here again!" John Rann, the highwayman, otherwise "Sixteen Strings Jack," of evil fame, liked to swagger about at Bagnigge Wells in the intervals of carrying out his nefarious deeds or undergoing punishment for the same. He is described as appearing there in July, 1774, "attired in a scarlet coat, tambour waistcoat, white silk stockings and a laced hat. On each knee he wore the bunch of eight ribbons which had gained him his sobriquet of 'Sixteen Strings Jack.'" There were lively doings under the influence of this sprightly gentleman, and on the occasion referred to he was pitched out of a window for offending honest company. Only a few months later he met the reward for his misdeeds on the gallows at Tyburn for venturing to rob the Princess Amelia's chaplain.

Dick Turpin was another "gentleman of the road" who amused himself in the intervals of "business" by frequenting pleasure gardens. He was once moved to kiss a fair lady in public at Marylebone, assuring her, when she protested, that she might ever after boast of the favor she had received. Whether Turpin and gentlemen of similar occupation came to pleasure gardens solely for their diversion may reasonably be doubted when we remember how frequent robberies were in the paths and field ways leading to these sylvan retreats. Watchmen were set "to guard those who go over the fields late at night," yet even so visitors were often attacked and robbed, sometimes in the gardens themselves and sometimes on the road to or from them.

In early days at Marylebone it was deemed necessary to provide the company with a guard of soldiers to conduct them home at nights, a curious winding up to a jovial evening. Pickpockets were of course plentiful at all the gardens despite every precaution, and one night at Cuper's in 1743 a thief caught in the act of taking a lady's purse was rescued from the hands of the police by a band of his comrades on his way through St. George's fields and enabled to escape justice for that time.—Temple Bar.

Meadows Around the Pyramids.

A progressive Arab of Cairo is sinking wells and installing irrigation pumps at the foot of the pyramid of Cheops, and the sphinx, after gazing thousands of years on sand wastes, soon will be looking out on green fields, says the St. Louis Post-Dispatch. This is one of the many demonstrations of the change from the old to the new Egypt.

It Made a Difference.

An excited man rushed into a lawyer's office and without any preliminary burst out, "Has a husband a right to open his wife's letters?" "Certainly, sir, certainly," was the reply. "Open all you please." "Well, here is a letter my wife has written to your wife and asked me to deliver. I think there's something unpleasant in it about me. I wish you'd open it and if there is just burn it." "Humph! Does my wife know your wife is going to write to her?" "Yes." "And if my wife doesn't get this letter she'll soon find it out, won't she?" "Of course." "On second thoughts," said the lawyer thoughtfully, "I believe there is a legal finding to the effect that it is a criminal offense to open a wife's letters. I couldn't take the risk, sir; indeed, I couldn't."

MARLOWE AS SALOME.

"Dance of the Seven Veils" In the Play "John the Baptist."

There has been much discussion as to the morality of Richard Strauss' music drama "Salome" as presented at the Metropolitan Opera House and of the stage version of the work, "John the Baptist," as produced by Julia Marlowe and E. H. Sothern at the Lyric theater, New York. A sensational

JULIA MARLOWE AS SALOME.

feature of the piece in either the dramatic or operatic production is the "Dance of the Seven Veils," by which the seductive Salome, makes so great an impression upon Herod that he consents to give her the head of St. John the Baptist on a charger. Miss Marlowe, who in the Lyric theater production takes the part of Salome, has surprised her admirers by the success with which she performs this difficult specialty. In her interpretation of the role of Salome she exhibits jealousy bordering on insanity, sweetly simple girlishness, cruelty like that of a starving lioness and naive ingenuousness.

Lifting a Kettle of Hot Water.

Some time when the teakettle is bubbling and boiling on the kitchen range lift it quickly by its handle and set it on the open palm of your other hand. This sounds like a very foolhardy thing to do—as if your hand might be blistered in a twinkling—but you will find that you can hold the teakettle which has just come from a roaring fire for some time without hurting you. Try it and then see if you can tell the reason why you are not burned. Be sure, however, that the water is boiling strongly before you make the experiment.

A Kippered Pastor.

A French Protestant pastor was the guest of a Scottish preacher at a manse. One morning kippered herrings were served at breakfast. The French pastor asked the meaning of "kipper." His host replied that it meant "to preserve." On taking his leave next day the French pastor, wringing his host's hand, said, "May the Lord kipper you, my good friend."

Postage Stamps.

Postage stamps are peculiarly liable to become septic and to convey deadly germs, says the British Medical Press and Circular, a fact that cannot be too widely known to the public who find in it a popular substitute for sticking plaster.

The Policeman's Butter Cake.

Jokesmiths are having lots of fun at the expense of the "bobbies" in New York since they donned their new French caps, writes the New York correspondent of the Pittsburg Dispatch. A patrolman, a corpulent man and short withal, stood at Park row and West Broadway the other morning, attracting considerable attention. Only the generous proportions of a helmet could have topped off with any effect other than the ridiculous that head, which in rotundity and size resembled a hair covered association football. Pedestrians gazed at the obese guardian of the peace in undisguised wonder, but forbore to criticise for obvious reasons. Finally, however, a friend came along. "Ho, Mike," he cried, "and phat the d—d hov ye got on yer hid?" Mike scowled, "'Tis a butther cake," he replied.

A Cause For Thanks.

Charles O'Conor once began an after dinner speech in Philadelphia in this way:

"I must confess that I dread to make after dinner speeches. At the most sumptuous dinners, even at such a dinner as this one, if I know that at the end I must make a speech I am nervous, I have no appetite, I find little to admire in the best efforts of the chef. In truth, gentlemen, I can readily imagine Daniel, if he was at all of my mind, heaving a sigh of relief as the lions drew near to devour him—heaving a sigh of relief and murmuring:

"'Well, if there's any after dinner speaking to be done on this occasion, at least it won't be done by me.'"

A Fine Repertoire Company.

This week the "Bennett—Moulton" pioneer repertoire company will be in Bellefonte and play a weeks stand. On Monday evening they will present for their opening bill "The Jealous Wife" and the others that will be presented during the week are "Eliza Dexter" "The Life Saver," "A Cowboy's Girl," "A Devil's Lane," "Faust," "Her Fathers Crime," and "TheeFatal Coin" On these occasions they will present a repertoire of dramas alternated by high class vaudeville between the acts. Among whom are the renowned Geo. F. Carroll in his illustrated songs, Josephine Gerrish, in popular songs. Chic Harvy the wonderful hoop roller, Eileen Montford the dainty soubrette and many others.

Ladies 15ct tickets will be issued for Monday opening performance, limited to 200. Seats on sale Friday morning, 10 20 30 cents.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton N. Y., be sure and mention this paper.

—An infant of Mr. and Mrs. Edward Klinger died Tuesday morning at the Klinger home on Penn street.

—We are pleased to see "Shorty" Watson back as conductor on the shifter again after a weeks illness with the grip.

—The seven month old daughter of Mrs. Nellie Green died on Monday morning at her mothers home on Logan Street

—On Wednesday of last week that big bird the stork left a big baby girl at the home of Mr. and Mrs. George Miller's on Reynolds Avenue.

—Extra freight trains have been run over the Lewisburg and Tyrone Division owing to the heavy traffic between Bellefonte and Lewisburg.

—Mr. W. H. Musser who has been confined to his home with an attack of the lagrippe is able to be out and around again, but is not at all well.

—Mrs. Joseph Montgomery entertained the Bellefonte Chapter of the Daughters of the American Revolution at her home on Allegheny street Thursday evening.

—Herbert Haupt fell from a box car at the Bellefonte furnace on Thursday and sustained a fracture of the hip. He was taken to his home where he is receiving medical attention.

—Mr. Uriah Eby of Pleasant Gap and Mr. William McElhattan of Bellefonte received increases in their pensions, from $10 to $12 through Mr. W. H. Musser's agency.

—Twenty-nine applications for liquor licenee have thus far been filed in the prothonotary's office. Of this number only two are new applications, those of Harry Simler, of Philipsburg, and Lewis E. Stover of Coburn.

—Miss Mary Smith daughter of Mrs. Mary J. Smith slipped on the icy steps in front of the Hull home on Monday evening on Bishop street and broke her arm at the wrist. The fracture is a very serious one and is causing the young lady a great deal of pain.

—Miss Pearl Knisely had a sleighing party on Wednesday evening to the Bailey home at State College. The young ladies and gentlemen report having had a loyely time. The sleighing is excellent now and parties are going out some where every night.

—In about two weeks manager Richard Taylor of the skating rink will have four professional skaters from Paris, France to give an exhibition on roller skates. These people are touring this country and Mr. Taylor is to be congratulated in securing them for Bellefonte. We cannot give the exact date of their coming.

—On Wednesday evening a bunch of the Juniors from State College had a sleighing party to Bellefonte. They were minus the girls coming down but my, oh my, it did'nt take them long to get them after they got here. It seems strange how our girls like the college boys, suppose the Bellefonte fellows are too slow.

—We are sorry to announce that our good friend Mr. Reamer the congenial conductor on the Lewisburg is having trouble with his eyes. He is now in Philadelphia consulting specialists in regards to them. We sincerely hope he may find speedy relief. His place on the train is being filled by Mr. George H. Botts, of Harrisburg.

—Mrs. William Steele is confined to her home with an attack of the lagrippe. This family certainly have had their share of sickness this winter. First Mr. Steel had a dozen of job comforters on his neck and head. Next Miss Ollie was ill with the grip and now Mrs. Steel has taken sick. It seems as though trouble never does come single handed.

—Mr. and Mrs. S. Claude Herr of East Lamb street are rejoicing over the arrival of a big bouncing boy who appeared at their home on Tuesday evening. Mr. Herr is assistant manager at the Armor Gap quarries and the boys down there are showering him with congratulations. Mrs. Herr and the young man are getting along nicely!

—Daniel Garman celebrated his 87 birthday Tuesday.

—Mamie, Shope daughter of Reynolds Shope fell last week and sprained her arm very badly.

FRANCES McSULEY DEAD

Passed away on Thursday Evening at 7 O'clock.

She has gone home to Jesus
Gone to that mansion that He
Has prepared for her On High
She has gone Home to Jesus
And we'll gather there in
Glory by and by.

Thursday evening little Francis McSuley daughter of Mr. and Mrs. John McSuley who has only been sick one week with brain fever passed away into Heaven.

Last Thursday morning she was on her way to school when she slipped and fell striking her head on the ice. In the evening she complained of severe pains in her head and a physician was called in. She gradually grew worse and an operation was performed and it was thought she was some better, but instead she grew worse untill death ended the struggle.

She was a dear little girl, pretty and quiet with a sweet disposition. Her little friends at the parochial school all loved her. In the school she was considered a very bright scholar by her teachers and she will be greatly missed by all.

She leaves a loving mother and the following sisters, and brothers to mourn he death. Elenor, John, and Joseph. She was 10 years old last August.

CONSIGNED TO THE TOMB.

On Sunday afternoon several hundred people gathered in the St. John's Catholic church to pay a last tribute of love and respect to the late little Frances McSuley. At the tolling of the bell in the church tower seventy-five little boys and girls, schoolmates of the deceased marched into the church and knelt near the altar.

The body of the little one rested in a beautiful white plush casket the top of which was literally covered with fragrant flowers sent by loving friends of the little girl and by the Painters Union who attended the funeral in a body. Among the collection was a beautiful wreath of roses and lillies and a large cross of red and white carnations and autumn leaves. After a prayer and the blessing of the body by incense and holy water, Rev. Father McArdle spoke very beautifully of the life that had passed on to that bright and better home above. The casket bearers were Messrs. Harry Vallence, Frank Doll, Lawrence O'Leary and Francis Miller. Interment in the Catholic cemetery.

Meeting of the Ministerium Association.

In as much as there has prevailed for sometime in Bellefonte an epidemic of the disease known as "Chancing" and as this disease seems to be spreading rather than abating. We the Bellefonte Ministerium most earnestly request the members of all the churches of Bellefonte, of whatever name or creed, as well as the entire community to use their best endeavors in blotting out this too common form of gambling.

Chancing is gambling. It is illegal and has a demoralizing influence on the community, on the young as well as the old.

Believing that there is sufficient moral and Christian sentiment among the citizens of Bellefonte to wipe out this evil as it now exists. We the Bellefonte Ministerium most earnestly ask the aid of all law abiding citizens in declaring openly once and for all against this harmful and illegal practice.

Signed,
AMBROSE M. SCHMIDT.
JAMES B. STEIN.
Committee for the Bellefonte Ministerium.
